SEE REPUBLICAN VICTORY.

WASHINGTON, Oct. 14.—"Republicans will make a strenuous effort to capture the seat in the Fifth Oklahoma congressional district left vacant by the death of Representative Joe B. Thompson, and there is every indication that they will be successful," said William J. Carson, of Oklahoma City.

PERSONAL

JOHN A. BRADFORD and son of Death Valley Junction, motored up from the southern end of the county this morning.

MRS. HUGH HENRY BROWN leaves tonight for Elko in response to an invitation to deliver an address to the annual convention of the Nevada Federation of Women's clubs to be held October 14-18.

E. H. MATTHEWSON of the Nevada Coal and Oil company, operating in Mineral county, was a passenger last evening for Reno.

JAMES K. MAYBERRY and wife, who have been touring the coast for the past five weeks, returned this morning.

SERGEANT ARTHUR DOLAN, who formerly conducted the Tonopah-Goldfield stage, returned yesterday from overseas where he served with the 116th engineers.

MR. AND MRS. W. A. PARKER leave this evening for St. Helena, where Mrs. Parker will enter the sanatorium and Mr. husband return to Tonopah.

K. J. STEPHENS and daughter from Ely arrived last evening on their way to Los Angeles.

VINCENT BURE, formerly employed in the local postoffice and transferred to Ely, passed through Tonopah last evening on his way to Los Angeles where he will spend his vacation.

CHARLES J. KESGON from Reno is in town for a few days.

E. B. CRIDDLE of the Nevada-California Power company, at Riverside, arrived this morning on company business.

FALLON MAY BE A SALT CENTER

W. S. Boden of Oakland, Calif., and W. H. Robinson of Los Angeles, Calif., have associated themselves with the U. S. Kinney salt company and will undertake in the most active manner the work of marketing the wonderful pure salt of the great deposits, twenty-two miles southeast of Fallon, which an inexhaustible supply is available for export, according to the Fallon Standard. It is proposed by them to erect a tramway (that will lead from the center of the deposits for a distance of about one and one-half miles to the lower ground to the sea, where the state authorities have a high way building project in hand. The completion of the projected roadway promises an economical method of transportation for the salt, inasmuch as it will make entirely feasible the operation of heavy motor trucks that will be depended upon to carry the salt from the end of the tramway to Fallon until such time as a railway has been completed to connect Fallon with the deposits. A project that has been seriously considered at different times in the past. Dr. C. A. Haswell and E. J. Gorman completed twenty-seven miles of railroad grade and the necessary bridges for the laying of the ties and rails several years ago, the promised tonnage of the salt deposits forming the incentive for their efforts and it now seems highly probable that Messrs. Boden and Robinson will be able to interest capital in the scheme of completing the building plans thus undertaken. With this idea in mind an option was taken by them Saturday on the line of grade leading from Fallon through the project framework district to the south right up to the very edge of the salt deposits and Cleveland. O. capitalists will shortly be there to make plans for financing the twenty-seven miles at proposed railroad.

The erection of a salt grinding and packing plant in Fallon is a part of the plan being considered by Messrs. Boden and Robinson, who are certain they can reach the market of the west with their product in sufficient volume to make the undertaking pay handsomely from the start, in which event Fallon will be favored with an industry that will be of the utmost value to the community, while salt consumers in western states will be assured a household commodity of surpassing excellence.

You may gain a day's success by means of a pull, and then you'll be pushed off.

You may not get away from the high cost business after you leave this world if you intend to go to a "higher sphere."

Apparently the only way to decrease the number of divorces is to decrease the number of marriages.

Women seem to find about the same amount of pathos in weddings and funerals.

An ideal father to the modern family is one that makes enough money so they can spend as much as their neighbors.

MICKIE SAYS

(VOICE) YES, WE SOLD OUT, BUT DON'T SAY ANYTHING ABOUT IT FOR TWO OR THREE WEEKS.

WOT! WAIT 'TILL EVERYBODY IN TOWN KNOWS ABOUT IT? SAY, WHAT DO YA THINK WE'RE GITTIN' OUT-AN ALMANAC?

AMENDED COMPLAINT FOR I.W.W.

(Continued From Page One.)

fully urged the continuance of the strike and of the methods of coercion and intimidation heretofore alleged; that at said meetings from day to day, speakers addressed the assemblies and stated that a social revolution was in progress throughout the civilized world; that Lenin of Russia was the apostle of such a social revolution and that Great Britain, Australia, Russia, Germany, Italy and the United States would soon be at the mercy of men who advocated the same principles as are accepted and advocated by the Industrial Workers of the World; that said speakers daily advised their hearers to demand that the miners of Tonopah and Divide district be paid \$100 a day more wages and by such an increase being granted that an additional demand would then follow and that the plan to be pursued was to strike for more favorable conditions against the

employer and should these conditions be accepted, to strike again for conditions still more burdensome upon the employer and repeat this process until the time should come when the employer would be unable to concede more and would be compelled, in the face of the continued demand and strike, to quit his industry and surrender the same to the strikers; that speakers likewise daily urged their hearers at said assemblies to apply abusive epithets to any person who expressed a desire or intention of resuming work in the mines until the purposes of defendants were accomplished.

Section VII describes the red card of membership and gives extracts from the constitution of the organization, including the following, defining the relations of labor and capital:

"Between these two classes a struggle must go on until the workers of the world organize as a class, take possession of the earth and the machinery of production, and abolish the wage system."

"Instead of the conservative motto, 'A fair day's wages for a fair day's work,' we must inscribe on our banner the revolutionary watchword, 'Abolition of the wage system.'"

The Official Bulletin, the organ of the order, is quoted to show strike tactics favor violence and disruption of society by "short and frequent strikes" including the "strike on the job" by "the withdrawal of efficiency."

Section X alleges that defendants have threatened to destroy the town of Tonopah by keeping up a class war irrespective of the desires of the workers who belong to that town, until such time as the employing class and working class shall adopt and become subject to their political and economic theories; that they openly propose a program of direct action in contravention of the laws of the United States.

That the defendants teach the doctrine that the strike is a lawful weapon for depriving employers and
